QUARTERLY REPORT JANUARY – MARCH 2015

INTRODUCTION

Tony Waite is operating in Kariba urban and peri urban in wards 1, 2, 3, 4, 5, 6, 8, 9 and 12. Tony Waite Organisation interventions envision holistic approach in caring and providing welfare of the affected children, youths, men and women. The organization has continued focusing on women's health in wards 1, 2, 3, 4, 5, 6, 8, 9 and 12 where more ward meetings are taking place. Secondary caregivers and church leaders are cascading the programme in wards.

PROJECT TARGET

The organization interventions target children in need of care, youths, adults and the elderly. Equal opportunity is being addressed across the board.

OBJECTIVES

- To identify needy children through community volunteers
- To improve household income, food security and health
- To provide C and HBC and palliative care
- To provide comprehensive scholastic support and psychosocial support
- To coordinate with other stakeholders.

PLANNED ACTIVITIES

C&HBC, Life skills training, M and E of livelihood projects, Support group and youth club meetings, Coordination meetings, Distribution of flyers, pamphlets and booklets, Marketing of Kapenta, Stake holder sensitization meeting, Procurement and distribution of IEC materials, TB Awareness Campaign, Volunteer refresher course, Monitoring and evaluations of projects

Volunteers had a refresher course on SRHR and TB

2) TO IMPROVE HOUSEHOLD INCOME, FOOD SECURITY AND HEALTH

A total of 360(194m178 f) beneficiaries were reached with feed for the month and the breakdown are as below 222(115m 107f) benefitted from fish heads. A total of 12(4m 8f) elders benefited from the kapenta. A total of 135(76m 63f) ovc benefited from kapenta. Nutritional support has been of much assistance to the beneficiaries let alone those who are on ART as they continue receiving different kinds of nutrition. See photos below

The Padare and Charara nutritional gardens continue to scale up their activities. Secondary caregivers also continue in gardening at PADARE community garden. A Padare garden green house has been completed and the second shade cloth is still in progress. The Padare garden members have been assisted with, beetroot and lettuce seeds. This has made them to gain the momentum, as the garden is now rich with different crops as witnessed with the growing of lettuce, rape, covo, tomatoes and beetroot. ZIHOPHE garden members have grown pumpkin leaves, okra. Members at ZIHOPHE garden have been limited with the using of the stony land thus they are calling for fertilization of the land or tractor tilling. The Charara garden is also being progressive as they have grown tsunga.

The organization continues conducting monitoring visits which have created trust and confidence. The Director and the Programmes officer payed 3 monitoring visits with the Agritex officer purposeful to capacitate the Charara Garden members on group dynamics, constitution and general follow up to check progress

B) MEDICAL SUPPORT

A total of 7 172(3290M 3882 F) were reached for the quarter with SRHR and this is proving to have a positive impact as 363(181m 182f) got tested.

Volunteers and church leaders continue to provide services in PMTCT. Church leaders also continue to play a crucial role in counseling and giving education on PMTCT. A total of 57 couples were reached with counseling, 172(74M 98F) youths and 130(53m 77f) individuals were counseled, 51(24M 27F) and 214(99M 115F) reached with SRHR education. The trained Workplace IBCF managed to reach 41 couples, 611(392m 219f) reached with PMTCT education and 87 (37m 50f) actually going for HIV testing. See Chart number reached by volunteers.

See graph on the figures reached by church leaders compared to those reached by the workplace IBCF for the quarter.

In addition to this, the organization has managed to get involved domestic violence couple counseling.

The following received counseling within the office, an adult on domestic violence and a female youth who has psychosis and was referred for further management at Kariba hospital and a woman who has been left vulnerable after her husband is behind the bars. The organization managed to assist one individual referred from Social Services with nutritional support. The referral system continue to be of much importance as clients come to the office and get assistance either in form of food material or information. The organization has also counseled a youth who have been clashing with his parents due to lack of submissiveness. This youth has gone to the extent of dissolving parent's hope as his rude behavior has withered her mother's hope and making dreams strangled. As there is power in dialogue, the differences managed to be ironed out and they are now in good books.

PSYCHOSOCIAL SUPPORT

Youth clubs and support groups continue to meet in their clubs. A total of 225(114M 111F) youths were reached during these meetings. They continue getting information on SRHR, hygiene, rights and responsibilities. They participated at the TB awareness campaign through a song urging the community to get screened for Tb and making it clear that it can be treated and cured. Youth club has been of imperative importance as there are stories of change that are being realized through these meetings. These meetings have helped a lot in changing the behavior and attitudes of many youth as they are being taught to have respect. More so, there has been a case of one youth who discontinued from the lifesaving medication (ARV's) but through counseling she has managed to continue taking her medication.

3) TO PROVIDE COMPREHENSIVE LEGAL AND SCHOLASTIC SUPPORT

The Organisation continues to provide support to 3 male students by paying for 1 Great Zimbabwe student fees for January and February food and bills for the other at Speciss College. It also payed supplementary needs for one student at Speciss College. More so 6(2m 4f) Nyamhunga primary student's fees were catered for the whole 2015 terms and 2 terms for a Nyamhunga High student. More so the organisation has supported a Nyamhunga Primary School male student by paying for his 1st term fees, March rent as well as payment of school uniform, report, sport kit and grocery for his upkeep. The organization

continues to appeal for donations in the form of cash or kind in order to assist 2 male students who are looking forward to go for university level. The organisation also referred an orphan to Mahombekombe primary school in order for her to be enrolled. Besides helping school children 3 clients who are facing maintenance and estate cases have been assisted by Antonio and Associates legal practitioners.

4) CAPACITY BUILDING PROJECT

GSLA groups continue to benefit from Tony Waite. 2 males were equipped with ISAL information after they were seeking loan service. The kapenta project has proved to be a force to reckon with as it has continued to benefit some of the beneficiaries in the community. Throughout this quarter 4 (3m 1) youths and 6 females have been employed as kapenta packers. This has played an essential role as the beneficiaries have acquired skills such as packing, scaling, bailing and stock taking. This can go a long way as many of them are being empowered not to sit on their hands relying on male counterparts but to contribute to the upkeep of their families. The organisation has been listed by N Richards Group as one of its suppliers which has 22 branches nationwide.

RESOURCE MOBILISATION

The Organisation continues to write proposals to secure funds for running programmes.

5. TO IMPROVE COORDINATION

Zimbabwe youth council visit, Egmont orientation meeting, Stakeholder sensitization meeting, Ministry of Women Affairs, TB awareness campaign preliminary meetings, DAAC prevention, enabling environment, treatment and care task forces meeting, DAAC stakeholder, Woman coalition meeting, anti-sexual violence meeting, gender stakeholder meeting, gender executive meeting, The Director was also invited at the Caribbea Bay student apprentice where she disseminated information on HIV prevention, care and support, disclosure and PMTCT to 32 (11m 21f) individuals. Ms Vengere also attended gender stakeholder (cultural and religious impact on gender where information on HIV /AIDS was disseminated to 16 (6f 10m).
